Notes from Your Teachers

Please check your email for an important survey from our Principal, Mrs. Mata-Tausch !

We are seeking your input on a brief, confidential research survey. The purpose of this study is to find out more about what you want for your child's education, and the decisions parents make when it comes to where their child attends school. The end goal is to continue to improve and refine our culture, staff, academic and extracurricular programs, and overall learning experience.

I encourage you to take a moment to complete this brief research survey, which can be accessed online using a computer, tablet, or smartphone. The survey is administered by a third-party research firm and your responses are completely anonymous.

If your child is absent, please send/email/Remind a note with the date and reason of the absence. After 3 unexcused absences, parents will receive an attendance warning from the office.
